

About FieldVu

The single solution to your many business needs.

In the industrial field services industry, it's not what you make that matters, it's what you keep. To grow your business successfully, you need to keep more of what you make. That's why FieldVu was developed. It will improve your operational efficiency and managerial effectiveness to help grow your business and your profits.

FieldVu was created specifically for industrial field services companies. It's an all-in-one, cloud-based field service management solution, that seamlessly integrates with SAP Business ByDesign, to provide you with reliable and accurate business data in one centralized location.

360-degree visibility

into your business data via one, centralized location

Mobile

Provides seamless off-line data capture

Scheduling

Plan for upcoming jobs, check availabilities, and schedule resources to keep your utilization rates high

Mapping

Visually see where your jobs and resources are at any time

Job Costing

Immediately know whether you are making or losing money on a job

Dispatch

See your resources at any time and send them where they are needed most

Financial Management & Reporting

Populates billing, payables, inventory, and payroll, which gives you the data to make the right decisions

Rentals

Manages your rental process end-to-end, from scheduling and dispatching to generating recurring billings

Access to Real-time Data

Anytime, anywhere

With FieldVu you'll spend less time looking for information and more time managing the growth of your business. You'll improve productivity, reduce costs, anticipate challenges and seize new opportunities like never before.

FieldVu Benefits:

- ✓ Increased visibility and accuracy into your business data.
- ✓ Reduced DSO because you can bill faster and more accurately.
- ✓ Insight into where your assets, employees and inventory are at the click of a button.
- ✓ Increased profits via tighter controls over job costs.
- ✓ Quick and easy access to your data whenever you need it.
- ✓ Ability to scale without scaling your overhead costs and infrastructure.
- ✓ Improved accuracy and reliability of data.
- ✓ Ability to monitor and manage your projects as they happen so you can make adjustments as needed.

FieldVu seamlessly integrates with SAP Business ByDesign and while the software capabilities are robust, using the program is easy. It provides you with reduced operational complexity and improved financial reporting enabling you to successfully grow your business and your profits.
