

# About FieldVu Cloud

**Get complete and instant visibility on your field service jobs, equipment and workers. FieldVu Cloud is a web-based industrial field services management tool that will increase your profitability.**

FieldVu Cloud works with FieldVu Mobile and your accounting system to provide a complete field service job management solution. You will know the when, who, what and how much of every field service job.

FieldVu Cloud provides the visibility and tools that the operations back office needs to effectively and easily manage field service jobs, workers, equipment and rental assets.

FieldVu Mobile provides the mobile worker with electronic field tickets that come back to FieldVu Cloud for processing.

## Complete Job Management

Schedule and manage your labor, equipment and material resources in one place

## Dispatch Control

Dispatch your workers, equipment and rental assets to the job and always know where your resources are located

## Rental Management

Manage your rental assets with dispatching, billing and repairs

## Job History

Automatic and complete job history, with billing, dispatch, field tickets and work orders history in one place

## Transfer Orders

Control and manage your equipment transfers between branches and know where your equipment is at anytime

## Resource Status

Real time status on the location of your workers and equipment, whether available, scheduled, on the job or under repair

## Equipment Management

Track the repair and job history of your equipment and know your costs and utilization

## Field Ticket Management

View, approve and reject your FieldVu Mobile field tickets and automatically start your billing, inventory and cost management

## Integrated Data

Data automatically transmits between your ERP system and FieldVu so that the field and the back office are aligned in real time

## Improve your Profitability

With FieldVu Cloud, operations management can quickly see what's going on in the field, enabling the quick response time needed to grow your business profitably. If costs for labor, equipment and materials begin to exceed budget, your client can be informed immediately, approving the change before receiving a higher-than-expected and unwelcome invoice. In short, you'll improve your cash flow – you'll get paid for your work weeks sooner and you can manage budgets more easily.

## Full Integration

FieldVu Cloud and FieldVu Mobile integrate seamlessly with your ERP (Enterprise Resource Planning) business processes. Your data moves into FieldVu and then back into your accounting system. This allows for more accurate invoicing, more efficient payroll processing and improved inventory control; all of which means greater operational efficiencies for your company. Your ERP is the source of master data while FieldVu handles your field transactions with the same data. Working with FieldVu, you will have one version of the truth.

## FieldVu Cloud Benefits

- ✓ Improved cash-flow
- ✓ More accurate invoicing
- ✓ More efficient payroll processing
- ✓ Better inventory control
- ✓ User-friendly, simple and intuitive
- ✓ Reduces DSO (Days Sales Outstanding)

**FieldVu Cloud will improve your operational efficiency and managerial effectiveness to help your business *Run Great.***
